

Dear Students /Parents ,

This is your first real choice to study medicine. You have to do your best to study and practice in order to excel. Medicine is a noble profession based on very special ethics and behaviours aiming at welfare of mankind.

Studying in foreign universities is one of the best decisions a student can take, while taking the decisions for selecting the best country to study is a real challenge. It's a matter great joy that *we* stand with you as a companion to support you and suggest the best options to choose from within your budget while keeping in view your preferences and abilities. Among the whole gamut of options like CHINA, PHILIPPINES, BANGLADESH, RUSSIA, UKRAINE, KYRGZSTAN, KAZIGISTAN, BELARUS, ARMENIA, SOUTH/CENTRAL AMERICA we have with us “**EGYPT -THE KING OF MEDICAL EDUCATION** the best of all above countries. In the nest few paragraphs we have described in detail “how Egypt is best from the rest?”

Egypt has become a new destination for abroad study. Students from across the world like Nepal, Malaysia, Bangladesh, Africa, Mauritius, Dubai Middle East, UK, Nigeria India are making their way towards culturally and historically diversified nation, Egypt. With alluring environment Egypt has well renowned institutions. Along with academic knowledge studying in Egypt provides the opportunity to learn about Middle Eastern culture, including political, historical, and economic. Egypt also provides **Quality Educations** at all levels and offers students with multi faculty choices. Not only it has affordable cost and facilities, but there are many scholarship programs being offered to international students. Many countries including Nepal, Malaysia, Africa etc. send their student to Egypt for scholarships as well. So why not to study in Egypt? Among many universities Cairo University, Ain shams University Alexandria University and Mansoura University are the oldest and most reputed ones. Situated in **capital** of Egypt Cairo , Alexandria city and Mansoura city of Egypt.

You are among the few gems Chosen for the great path . Choose wisely and get set to actualize your dreams in Egypt. The **culture, environment , food, and exotic buildings, pyramids of Giza** and the longest river in the world, **Nile** will capture your heart during your stay. Taking a long walk after your hectic day in the university will rejuvenate you from within. **As the campus is situated on the banks of Nile a panoramic view of the river will catch your innermost feelings.**

Want To Be A Good Doctor? Why You Must Choose Egypt?

MBBS IN EGYPT : Q&A (Know everything in details)

Know all about: MCI rules for MBBS Abroad

✓ MCI has stopped issuing eligibility Certificates for the candidates who are going to study in foreign medical universities.

✓ For such students, their NEET qualifying score card itself is treated as the eligibility certificate for that candidate

✓ Before taking admission, the aspirant must inquire about the status of the medical qualification of the university from MCI and Fee structure from the university /college/institution concerned.

✓ No aspirant, according to MCI Rules for MBBS from abroad, Shall be permitted to sit for the screening test, For the purpose of registration in India ,Unless he/she produce the eligibility Certificate issued By MCI (Exclusively for the students who have taken admission before 5 June 2019,Onetimeexemption.)

✓ In 2018, some students who were not qualified/ not appeared in NEET had been allowed to study MBBS in Foreign medical universities, such students must approach MCI to get an Eligibility certificate Other students who had qualified in NEET do not have to get eligibility certificate, their NEET scorecard is already be treated as their Eligibility Certificate

✓ No aspirant will be allowed admission in MBBS In abroad until He/she has qualified NEET from 5th June 2019 onwards

✓ NEET score is valid for 3 years for MBBS abroad from 2019 onwards

✓ As per the screening test regulation 2002 , an Indian citizen/Overseas citizen of India possessing a primary medial qualification awarded by any medical institution outside India who desires of getting provisional or permanent registration with MCI or SMC (State Medical council) on or after 15/3/2002 shall have to qualify the foreign medical graduate examination (FMGE) / screening test/NEXT

✓ Such students are required to register with a State Medical Council in order to practice in India after obtaining their degree

✓ State Medical Council can register a student with foreign medical qualification only after he/she passes in the Foreign Medical Graduate Examination (FMGE) conducted by the National Board of examination (NBE)

✓ Student has to score a minimum of 50% marks out of 300 for pass in FMGE/Next exam

✓ This is a statutory requirement as per section 13(4A) of the IMC Act, 1956 amended in 2002. Students who hold an under graduate as well as post graduate medical degree from the following countries need not take the FMGE and they can directly be registered by the SMC. Australia ,Canada New Zealand, United Kingdom &United States of America.

CODE OF MEDICAL ETHICS

Almost up to the present century physicians were trained under an apprenticeship system, and each apprentice was required to take the Oath of Hippocrates.

This code of ethics forms the basis of the Declaration of Geneva (1948) and the International Code of Medical Ethics (1949)

International Code of Medical Ethics

The "international code of Medical Ethics, as adopted by the World Medical Association in London, in October 1949 describes.

Duties of Doctors in General

A doctor must always bear in mind the importance of professional Conduct. A doctor must not allow himself to be influenced merely by motive or profit.

Duties of Doctors to the sick

A doctor must always bear in mind the importance of preserving human life from the time of conception until death. A doctor owes to his patient absolute secrecy, complete loyalty and all the resources of

science.

Duties of Doctors to each other

A doctor ought to behave to his colleagues as he would have them behave to him.

PATIENT'S RIGHTS

The rights of the patients cover a broad range of moral and legal issues.

The following are generally recognized the rights of the patients

1 Right to be treated.

2 Right to privacy.

3 Right to know about the nature of illness and treatment required.

4 The physician to keep information contained in patient's record confidential unless its release is required by law.

5 Right to have clear idea about medical bills he or she has to pay.

GENEVA DECLARATION

I solemnly pledge myself to consecrate my life to the service of humanity

I will give to my teachers the respect and gratitude which is their due.

I will practice my profession with conscience and dignity.

Health of my patient will be my first consideration.

I Will respect the secret which are confided to me.

I will maintain by all means in my power, the honour and noble tradition of medical profession.

My colleagues will be my brothers.

I will not permit considerations of religion, nationality, race, party politics or social standing to intervene between my duty and my patient.

I Will maintain the utmost respect for human life from the time of conception

Even under threat i will not use my medical knowledge contrary to the laws of humanity.

I make these promises solemnly, freely and up to my honour

(12 October 1949

Testimonials of students

Ayushi Singh

Allahabad, Uttar Pradesh

Studying in Ain Shams University of Medicine, Cairo, Egypt describes her experience in Egypt as “It is very good as level of Study, digitalization, course books, people here. Everything serves so well. Hostels are safe, secure for girls, initially I was skeptical about food as I am a vegetarian but my cooperative and understanding seniors suggested me the vegetarian options available. It’s a heaven for Non-Veg lovers with plenty of options and continental sea food is worlds the best here.

The University professors are learned and experts in their field together with the supportive administrative and hostel staff. The University had also arranged free Cairo trip. The University regularly arranges special lectures for students who joined late in the session. The labs. are fully equipped with latest equipments. The best part is that the University has prescribed set of books easily available in the book stalls inside the campus unlike in India students don’t have to buy separate set of books.

Tanmay chokraberti

Guwahati//, Assam

ASU is the best place for medical education. It not only stresses on the academic aspects of the student life but also various extra circular activities such as sports, cultural activities, researches awareness program etc. The academic standards are up to the mark as prescribed and the teaching faculty is regular and excellent. Teachers are highly cooperative, student friendly and get down to the very basics to ensure that students understand the concepts aptly. Our classroom is equipped with advanced technology and also has an E-learning system. The college is vibrant, motivating and inspiring, nurturing the necessities that a student requires to acquire knowledge.

One of the things I love most about Ain Shams University Faculty of Medicine is the emphasis on different

learning styles beyond the classroom: from team-based learning activities with our classmates to applying what we are learning at the Clinical Skills Education and Technology Center. By applying our knowledge base in a simulated patient interaction or to solve clinical case studies, we can hone our skills and really solidify our understanding of medicine.

Rituraj Singh Panwar

Ujjain, Madhya Pradesh

My name is Rituraj Singh Panwar. I am from Ujjain Madhya Pradesh. Before coming to Egypt, I turned around and interacted with many agents, everyone told about China Russia Ukraine Kyrgyzstan and many countries, but there is some problem which I felt but from this year I came to know that MCI approved colleges of Egypt. Ain Shams university is good, compared to other countries, here facility is more, the opportunity is more than in other countries, there is not so much problem the exposure of the hospital is good. For us (Indians), weather is similar to India. If u searching for abroad mbbs. Egypt is best option.

Himanshu Hada

Jaipur, Rajasthan

I am in 1st year year ,completing my graduation in medicine Ain Shams college, Cairo, Egypt .Ain Shams college has all the necessary infrastructure required and all the classrooms are included with state of art infrastructure with very good and well maintained labs and libraries have almost all the books for all subjects from first till last semester, the infrastructure is well maintained with free unlimited wifi for study related problems and college have a very big canteen with very good quality food. The teachers are also very well qualified and knowledgeable. The placement of the college is quite good a number of companies visited the college every year giving various opportunities .The education cost is slightly on the lower side as compared to the China ,Russia, Philippines, Ukraine and when we look at the overall growth than this cost is very much acceptable for us to get groomed for the outer world .The university is keen on providing full medical care for the students, including Medical facilities. The provision of essential and emergency medicines to all cases of Ain Shams University students, have been treated by the General Administration of Medicine which is one of the biggest positive point of any medical college to be treated at a high level, Cairo ,Egypt is a Non Hindu country but here all persons and religions are treated equally and even all citizens of Egypt admire the Indians and they have very friendly and helpful nature towards us. My overall experience is very overwhelming here and I genuinely recommend the college for my friends and siblings covered by all aspects Infrastructure and Placements.

Tamana

Delhi

Well I'm a teen studying in Egypt and I could say with all confidence that Egypt is 100% safe. I go out on daily

basis and I don't feel threatened. Egyptian are hospitable, friendly people you'll manage perfectly. Egypt is actually safer than USA and UK and many other countries. Talking about studies in Egypt based on what I know, most people who pursue their studies in Egypt are here because of the education system. The opportunities offered here are impressive. Meeting other international students was fascinating, as we all found a certain beauty in Egypt. ASU Has a huge infrastructure, Campus and hospitals. It was well built and maintain. The medium of education is English. The patient flow in the University Hospital is very high.

Payel Vijay

Kota,Rajasthan

I am Payel Vijay Studying in Ain Shams University, Faculty of Medicine in Cairo , Egypt. I Choose Egypt because of good ranking, low expenses, digital education, 5 year course which allow us Internship in India. Exposure of patient is very good here. In my experience professor and Egyptian students are so cooperative; they helped me in every possible way. University has their own books which are in very easy language. The medium of instruction in our lectures is in English.

Nabeel Ahmed

Mumbai, Maharashtra

My personal experience of the faculty is outstanding and remarkable. There are separate english classes for non arabic speaking students. The professors are very kind and supportive. The faculty provides equal practical knowledge with the theoretical knowledge. The college has huge liabrary with finest books and personal study space .E -learning is the part of institute's curriculum which improves the quality and effectiveness of teaching and learning. The institute has its own research committees like MASRI which provides ample opportunities to the students in the field of research. The faculty has its own hospital which serves a huge patient flow daily. This ensures the best clinical exposure to the students making them excellent future doctors. I feel myself grateful being a part of one of the world's ancient and best ranked Medical Schools.

Ansari Musaab

Aurangabad, Maharashtra

I Ansari Musaab am having an incredible time here in Egypt as a student in Ain Shams faculty of Medicine. The environment is very education friendly, the faculty is very cooperative and my fellow Indian peers are also very good and friendly. Our acting guardian sir Aftab manager of(hope consultants) has also been doing his best to

help us here to cope with the language barrier and the different administrative issues that come to face us. The other international students have also supported us and have been very helpful. All these factors together have made these past few decisive months successful for me.

Niyati Mishra

Baroda Gujrat

I am from Gujarat, India and currently a MBBS student at Ain shams University, Cairo, Egypt. My experience as an international student has overall been positive. First, Cairo is a host city for medical education and is also student budget friendly making it the favourite place of students who wish to build their careers in medicine. Cairo is one of the busiest cities in the world and so living in Cairo is as intriguing as it is potentially overwhelming. It is absolutely safe to live here in Cairo. The people are very much friendly who will go any bound to help you. It is very much fun living here.

Ain shams University being the one of the top rated Universities in the world provides us with high quality education, services to international students, the efficiently operating administration and above all the infrastructure. Upon arrival, we were welcomed and properly guided through well organised orientation days and informative sessions. I mostly appreciate the classes being interactive and supportive teaching staff.

Musseb khan

Aurangabad Maharashtra

Being a student of Ain shams University, Faculty of Medicine, i am proud of it, this is one of best university in word as its ranking says, and The faculty is equipped with modern system of education. The faculty is committed to the standard of medical services and professional ethics. This faculty also supports towards scientific research. and is the best place to study medicine in Middle East.

Abdullah Meraj

Everyone in this world before believing others he believe on Google's results first...

So before coming here or thinking about here surely everyone has searched about EGYPT...

So nothing to tell you about Egypt more, but few points you should know and few things which you should take care-

1) **Criminal Rate-** Anyone going to new place thinks about security first, so It's too less because it's a UAE so

you have already listened about rules and regulations.

But you have to be aware of scam which can be made by some locals, this happens only on tourist place like Pyramid of Giza...

2) **Education-** You can search the ranking of college in world about AIN SHAMS UNIVERSITY □, because people believe on Google more than someone words.

3) **Ain Shams-** It's a good college, the best part is that everyone is of helping nature from teachers to students or staff; everyone will tell you the right thing. And they have made separate classes for Non-Arabic speaking students, but my opinion is that you should learn some basic arabic.

4) **About Egyptians-** They all are also of helping nature, but in all over the world every person has a different nature so every type of people you will get here, some having bad behaviour but mostly having a good behaviour.

Hujefa

Gujrat

Faculty of Medicine, Ain shams university is doing great for all the international students.

Study is very good here maybe better than India. All the professors are always ready to help us. Safety is also good here you don't need to worry about this. The main problem here is Arabic language, one should ought to learn the Language As soon As possible.

Muhammad Ajmal N

Kerla

Student of ASU faculty of Medicine, Cairo

In my point of view from my experience here after first semester, I can say Egypt is a good destination for studying Medicine because of low living cost and fee structure when compared to other countries, good cooperative faculties, Advanced study facilities including a big library, good campus atmosphere, cooperative people, great patients outflow in hospitals, similarities with Indian conditions etc...

The way of organizing the academic schedules are also very good....

In the same way we faced some problems related with languages and accommodations... University hostels were expensive than we think. So we had to stay on apartments outside the campus. Other thing is communication...

Arabic is common here. Our colleagues from Arabic nations helped us a lot here.
